# COMPANY OVERVIEW

**C**loud Access was founded in 2016. Our Mission then, and now, is to provide solutions that addresses challenges in Cloud Computing, Cybersecurity, Bigdata, Internet of Things (IoT), Technology for Defense, and Complex Enterprise Solutions.

We offer complete systems integration, from enterprise designs and implementation, remote communications, business process applications, solar and battery technology, to military grade security solutions.

The company employs best practice leveraging years of combined staff experience to delivering quality Services and solutions to our customers in order to derive maximum results from their IT investments. The company has its footprints in Public and Private Sectors. And we are poised to make it our purpose to help our customers better understand the technology they are using.

Cloud Access is registered with CAC in Nigeria, and with Companies House in England, trading as Cloud Access (Manchester) Ltd.

**cloudaccess**

Cloud Access is guided by its code of business conduct, and ethics which is formulated from globally accepted corporate governance policies as well as internal policies that are drafted to reflect the depth of character expected from every staff member and the group as a whole.

We continue to review these codes to reflect the ever changing business environment we operate in. For us, our businesses must be carried out in a way to balance the Interests of all stakeholders, be it the government in areas we operate, customers, clients, shareholders, staff and the environment.
